

Malting Barley Safe Storage Time Calculator

Approximate safe storage times in days

Temp	25-30°C	20-25°C	15-20°C	10-15°C	<10°C
Mst Content					
18-20%	<2	<7	11	21	39
16-18%	<10	14	35	70	>100
14-16%	28	42	70	>100	>100
<14%	70	>100	>100	>100	>100

DRYING MALTING BARLEY:

Always consult manufacturers handbook.

Hot air driers-never let barley grain temperature exceed 45°C

On floor drying-drying over too long a period may reduce germination
& allow growth of moulds & formation of mycotoxins

COOL TO 10°C AS SOON AS POSSIBLE
