

Sale Notes

Ram Pricing

The rams are graded in the catalogue A, A, B, C & D*

These have base prices of £750, £700, £600, £500 & £450 accordingly

On the sale day if only one person shows interest in a ram it is sold at base price

If two or more people are interested in a ram, there are 2 options;

- 1) Names in a hat*
- 2) Regular auction*

If you would like an Exlana team member to bid for a ram for you, please call either

Tim White 01985 845063 / 07780983593

Or

Peter Baber 01647 252549 / 07967595098

Exlana Index

Our genetic evaluations are calculated by SIGNET and include individual FEC EBVs , however these are not included in the SIGNET Index.

We believe that parasite resistance is a very important trait in maternal genetics and have therefore created our own "Exlana FEC" EBV which incorporates both Nematodirus and Strongyle EBVs into a weighted FEC value

This in turn is then incorporated, along with all the other individual EBVs, into our final "Exlana Index"

We are always happy to help explain the figures if you have any queries
