

# Answers

1. In which month does Veganuary usually take place?
  - ☒ **January**
  - ☐ February
  - ☐ March
  - ☐ April
  
2. Compare and contrast a vegan and vegetarian diet.
 

**Vegans do not eat food that comes from animals. They get all their food from plants. Vegetarians do not eat animals but may eat things made from animals, like cheese.**
  
3. Find and copy evidence from the article which support the statement below.  
 'The number of people following a vegan diet is increasing.'  
**Accept any response which refers to the facts outlined in the article, such as between 2014 and 2019, the number of vegans quadrupled/in the UK in 2019 there were around 600,000 vegans. e.g. The article says that the number of vegans quadrupled between 2014 and 2019.**
  
4. Why do you think the author of the article mentioned that fast-food chains now offer vegan options?  
**Accept a response which suggests that the author included this to show that fast-food chains are aware that more people are following a vegan diet and that they want everyone to be able to enjoy fast-food. e.g. They want to make it clear that fast-food is available for anyone who wants it.**
  
5. 'Vegan meals are now available in shops and restaurants.'  
 Tick the word which is closest in meaning to 'available.'  
  - ☐ ready
  - ☐ open
  - ☒ **can be found**
  
6. Write an alternative headline to summarise the article.  
**Accept any headline which summarises the content of the article. e.g. Some people Are Following a Vegan Diet in January.**
